

Attn: Amanda Iovino Campaign finance analyst

This report will address certain issues raised in your letter dated 11/18/08 in connection with our amended October quarterly report for (8/7/08-9/30/08).

Point #3 of your letter regarding failure to report certain contributions received on 48hr notices. These contributions were properly received on the dates indicated on our report. However our campaign finance director who is responsible for receiving and entering contributions into the database was on the road at the democratic convention and did not return until after the primary 48hr date had expired. Therefore he had no knowledge that these contributions were received during the 48hr reporting period and consequently a 48hr notice could not be filed. The campaign recognizes the responsibility of complying with campaign finance law and has put in place procedures for alternate people to access the PO Box so that contributions can be reported on a timely basis.

Point #4 Excessive contribution received from David Drucker in the amount of \$500.00 has been refunded on 11/24/08 and will be reported on our next scheduled report.

Point #5 Excessive contribution made to the campaign committee of Anne Barth For Congress in the amount of \$1000.00. This amount was refunded and reported as an other receipt on 9/26/08 from the Anne Barth For Congress Committee on our October quarterly report (8/7/08-9/30/08)

Point #6 There were two contributions designated as primary but had receipt dates subsequent to the primary election date. Upon review the receipt dates were entered incorrectly and have been changed to reflect the proper date received and will appear on the amended report October quarterly report (8/7/08-9/30/08)
